OBJECTIVE

I'm a BCA graduate with a strong interest in technology, starting my journey in Java, SQL, web development. I've built responsive and easy-to-use web applications and enjoy working with teams to make projects successful. Always eager to learn new tech, I'm looking for opportunities to grow and bring my beginner's technical skills and creativity to a software development role.

TECHNICAL SKILLS

- **Languages:** Java, HTML, CSS, JavaScript
- **Database:** SQL Programming

EDUCATION

- | | |
|--|------------------------|
| • Bachelor of Computer Application (BCA)
<i>SDM College Of Business Management; GPA: 8.4</i> | Mangalore
2020-2023 |
| • Pre-University Course – PCMC
<i>SDM Pre University College</i> | Ujire
2017-2020 |

PROJECTS

- **ATM Simulator System - Built using Java and MySQL:**
created a safe banking app with everything a consumer needs to improve their banking experience, including deposits, withdrawals, bank management, and extensive ATM features.
- **MedEasy - Built using HTML, CSS and JavaScript:**
Created an e-commerce website with the goal of making medical supply purchases easier for patients to access.
- **Personal Portfolio - Built using HTML, CSS and JavaScript:**
Creating dynamic and user-centric E-commerce websites, proficient in optimizing online shopping functionality and enhancing user experience.

ACHIEVEMENTS

- Collaborated with classmates as a key member of the team that successfully planned and executed the college's major IT quiz, significantly improving teamwork and communication skills, and achieving a 30% increase in participation from previous years.
- Successfully led a team of 5 in executing a large-scale catering event for 300 attendees, completing the project ahead of schedule and enhancing departmental efficiency by 20%, thereby significantly elevating our reputation.

LANGUAGE KNOWN

- **English**
- **Kannada**
- **Hindi**
